ent at such time, the circulation of sap contines until the stalk becomes dried and the

corn ripese and improves in the short whereas in topping you entirely remove that portion of the stalk most needed in the riper ing process. There is certainly a certain time at which corn can be cut when the shrinkings in the corn will bear in companson to the loss of fodder if allowed to stand longer, at just what stage this is, each must judge for himself. My tule is, when the cor-is all well glazed and rather more than halthe ears begin to turn yellow, cut and put up small shocks, and as soon as the sufficiently cared to crib, lask, landing the fielder securely, and outing nine shocks of corn in one of folders. Cor. Rural New-Is it Riona's The following appeal for money is not without humor and abounds in much truth. It appeared in the Easton Az-

1911 Stronger Testimory?

These Greater W. Women with intensity that destroy of the superior control Pennsylva-tion. The superior control Pennsylva-tion of the superior with the testing of the testin ch people think we can live on beach back, like a Cossack's horse, or grow fat by inhalby the west wind? Do they suppose that the Female Charicable Society supplies us with clothes. Do they suppose that paper, type, ink, fuel and many other costly and ssary articles are sent us by an unknown and investble hand? Whatever Dr. Pausto or ht have done, the black art of modern printers has no such magic in it. When nogry we have no time to fish or hand, and it would be impious to expect a sheet tall of and things to be miraculously let down from ere of Peter, and, as to being fed by cavens, it is more likely that the ravene will feed WATCHES & JEWELRY.
